MONEY, STOCKS AND BONDS.

The Market Stimulated by the Harmonious Action of Railway Presidents. NEW YORK, Jan. 10 .- Money on call today was easy, with no loans, closing offered at 3 per cent.

Prime mercantile paper 612 @8 per cent. Sterling exchange active and firm at \$4.83 for sixty-day bills, and \$4.864 for demand. The total sales of stocks to-day were 198,258 shares, including the following: Atchison, 13,595; Lackawanna, 7,498; Erie, 1,850; Hocking Valley, 1,630; Lake Shore, 1,860; Louisville & Nashville, 10,310; Missouri Pacific, 2,700; North American, 6,960; Northern Pacific, 11,745; Northern Pacific preferred, 6,600; Richmond & West Point,

9,805; St. Paul, 18,165; Union Pacific, 5,620; Western Union, 2,137.

The complete harmony existing in the conference of railroad managers now in session in this city has proved to be the greatest stimulating influence upon the stock market which we have had for months. To-day it turned the temper of the foreign operators from "bear" to "bull," while the confidence displayed by domestic operators of all descriptions has been most prominent for several days. The offerings of stocks are becoming lighter from day to day, owing to the general revival of confidence in the future of the railroads in this country, and there is now in the street a general feeling that during the next sixty days there will be a complete recovery from the recent depression. To-day another large increase in the bank reserves was shown and the surplus is now raised to above \$13,000,000, a figure which it has been only once for the past six months, and that was when the heavy disburse-ments were made by the treasury last fall. The improvement in the temper of the street was apparent with the first sales and everything was higher, while an extraordinarily active business was trans-acted, with the result of scoring another advance over the whole list. The only sluggish stocks were the coalers, which have all had such marked advances in the past week. The sky-rocket advance in ar Refineries was continued, aided by

ing the receivers had been vacated and the property was to be turned over to the ranged as follows: trustees, who will now go forward with Options. Online the plan of reorganization. The stock rose from 6614 to 7112 and closed at 7078. The Villards were a strong point in the market; the grangers were all prominent, but the Gould stocks were sluggish. The extreme activity of the first few minutes did not last, but the strength was never slacked off and prices steadily mounted till the close, though there were few specially wide fluctuations outside of Sugar. The gains of note were Sugar, 45s; St. Paul and Northern Pacific, 15s each; Louisville & Nashville, 13g; Colorado Coal, 114; Burlington & Quincy, 11s, and Atchison, 1 per cent.
Railroad bonds also continued to show

the great activity of the past few days business of the two hours to \$1,423,000, with the same speculative issues leading in the dealings. Atchison incomes contributed \$158,000, the Texas Pacific incomes \$125,000 and the Iron Mountain fives \$105,000 to the grand total. The strength of the market continued unimpaired, and among the numerous advances may be mentioned Toledo, St. Louis & Kansas City firsts 212, to 90; Louisville, St. Louis & Texas firsts 2, to 87; St. Paul Mineral Point 212, to 9934.

Government honds were dull and steady. State bonds were neglected. Closing quo-

Wheat Closes Weak-Corn Firm-Cash Oats Lower-Pork Easy.

'Not included in totals.

CHICAGO, Jan. 10. - The wheat market, after averaging firm to strong for the greater part of the session, closed limp and weary at 4c decline. The speculators had

they, toward the close, acted in accordance with the maxim, "When in doubt, sell." The market opened about steady, the price at the commencement of business being identical with the closing quotation of the previous afternoon. Cables, except as regards the business in cargoes off coast and afloat, were easier in tone at the opening to-day than yesterday. Concerning the cargo trade, however, Beerbohm's dispatch quoted it strong in all positions. Snow was advised as having already covered up the wheat-plant over the greater part of the winter-wheat country, and the weather here was mild and threatening snow or rain. There was an advance in silver and a rather confident feeling concerning the future of the money market. The foregoing features bad nothing in them sufficiently pronounced in character to create alarm to either "bulls" or "bears," and consequently no great change in prices took place. Later, however, the dispatches which came to hand were almost uniformly bullish, and under ordinary circumstances a material advance in prices would most assuredly have followed, but the government statistician's forthcoming report was regarded as of too uncertain a character to bet upon. Contrary to the experience upon former occasions of a similar kind there were no pretensions put forth by any one of the possession of advance information from Washington, and consequently the feeling of uncertainty was unrelieved by the excitement which is occasionally produced by a few mendacious dispatches. That Mr. Dodge was more than ordinarily feared may be inferred from the stagnation which reigned all day. The sale of they, toward the close, acted in accordance with the maxim, "When in doubt, sell." That Mr. Dodge was more than ordinarily feared may be inferred from the stagnation which reigned all day. The sale of 300,000 bu of No. 1 hard Kansas wheat for export via New Orleans was reported. Yesterday 10,000 bu was cleared from New Orleans for Liverpool. It was claimed later that the St. Louis transaction was old business done in December for transshipment. As an offset to the sale reported another dispatch from St. Louis to Kennett Hopkins said men from Salt Lake were there offering Utah wheat under the present cash price of Utah wheat under the present cash price of No. 2 winter, without finding buyers. This latter point was scored by the bear party toward the close, and a report which gained toward the close, and a report which gained ground about the same time—that the government report was "agin" the "bulls"—made the session close upon a very weakly-looking market and at about the lowest price of the day. The corn market was dull but firm, principally upon an expected bullish government report. The bullish probabilities of Mr. Dodge's statement have been urged much more vigorously than the other side, and have been based mainly upon reports from those been based mainly upon reports from those States which were the heaviest loosers by the past season's unfavorable weather. The fluctuations were narrow, and trade light and featureless. The cats market was active at a narrow range of prices in the active future. The country and local scalping crowd were free sellers. Cash oats broke ic without affecting the speculative market materially. The provision market was firm early in the session, the good demand for hogs which was reported from the yards contributing a little to the sustaining of the price of the product. The haste and unaniminity of the packers in selling when the market appears stiff enough to stand it has no apparent effect in lessening the de-mand from outside. Cudaby was again a free seller, and on the call the packers generally took a hand in supplying the de-mand. The market closed at about the lowest prices of the day. The leading futures

NEW YORK, Jan. 10.—The dry-goods market was relatively quiet because of the semi-holiday character of the day, but there were continued good sales of the bleached shirtings lately reduced in prices, and the movement of stocks has has already been pretty well completed. It is not unlikely that there may be a reaction in values in the near future. The general market is very steady and in good shape. Prints were selling more freely, and wash fabrics are being duplicated. There is a good feeling throughout the market.

INDIANAPOLIS MARKETS.

Trade Very Satisfactory for the First Week in a New Year.

The market was steady and unchanged.

INDIANAPOLIS, Jan. 10.—The volume of trade in the week closing to-day rather exceeded expectations with the wholesale houses, as in the first week of a new year a dull trade is not a surprise. In prices there 18 8 remarkably steady tone for early January. Sugars, which went off in the early part of the week, showed more strength as the week advanced. Coffees are in a strong position. Canned goods and dried fruits rae meeting with more than average distribution, the high prices for green fruits tending to increase the demand for dried fruits. The dry-goods market carries s stronger tone than had been expected; in fact, some lines of goods, with the coming in of the New Year, show a tendency to higher prices. Shirting prints, for instance, higher; No. 2 mixed, 55c. Oats strong and are 712 per cent. higher than in the opening of the season, while bleached cotton goods are 40 off. The hide market is active, but on an easy market East prices have not shown any advance. The provision market, as asnal in early Janury, is unsettled; still in a jobbing way, trade is fairly good. The flour market, for ten days past, has been in a more favorable position. While no marked advance in prices has been effected, there is a better demand for the higher grades. The produce markets show remarkable activity, with strong prices ruling on all articles. Vegetables of all kinds are, in light supply and there are no indications of lower prices before the crops of 1891 come on to the market.

The local market, to-day, was in much the same position as on Friday except that wheat showed a little more firmness, No. 2 red advancing to 96c. Corn and oats both ruled steady at the following range of prices. Wheat-No. 2 red, 96c; No. 3 red. 9212c; rejected, 75@85c: unmerchantable, 65@70c. Home and Foreign Events of all descriptions are treated with a fullness and completeness not attempted by any other newspaper in Indiana. Among the newspapers of the State it is preeminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. This feature of the Journal, during the ensuing year, will be kept up to its present high standard of promptness and accuracy, and the service will be improved wherever it may be needed.

The Journal's market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable.

The Journal is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in the future be, the aim of the publishers of the Indianapolis Journal to furnish a perfect and complete newspaper, deficient in no department or particular.

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party. the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Especial attention is invited to the merits of the

SUNDAY JOURNAL

A large, handsomely printed paper, never less than twelve pages in size, frequently sixteen, and which will be increased in dimensions as the exigencies of business may require and justice to the reader demand. This issue presents a very large amount of the best current literature, including stories, poems and sketches by many of the best known and most popular writers of the time. The publishers ask examination and comparison of this issue with any paper of similar character published or sold in Indiana. The SUNDAY JOURNAL can be subscribed for and received exclusive of the Daily Journal.

THE

(THE WEEKLY EDITION)

One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. It is a complete compendium of the news of the week, accompanied by the latest market reports, and special departments devoted to agricultural, horticultural and household topics. It is complete in every department.
